
WOCA[®] Diamond Oil

THE N°1 ONE-COAT-SYSTEM

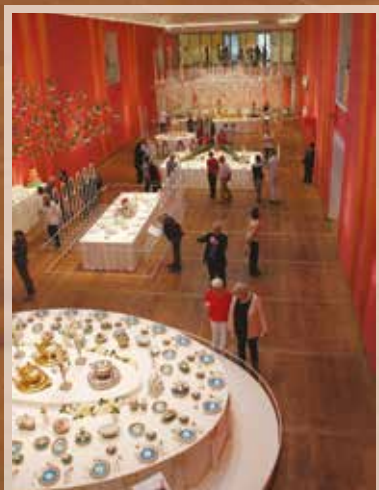

Spectacular art and stunning wood floors

Museum Hermitage, Amsterdam

The treasures of Russia's most magnificent museum, the world famous State Hermitage Museum in St. Petersburg, can be explored in the Dutch satellite branch, the Hermitage Amsterdam. Located along the Amstel river, the Hermitage Amsterdam is an exhibition space and education centre focusing on the collection of 3-million art pieces from the mother museum.

The wood floor in "the Keizersvleugel" has been renovated with WOCA Diamond Oil. WOCA soaps are used for the regular cleaning.

WOCA Diamond Oil

The N°1 one-coat-system.

WoodCare Denmark has launched new contemporary colours into their WOCA Diamond Oil range. The Diamond Oils are a completely new generation of professional oil treatment system, for finishing floors and are unique in the market, with consumption of up to 25 sq meters per litre. All applied in one simple coat.

The Diamond Oil has +99% solid content with low viscosity and suitable for all types of hard and softwood flooring, parquet, wall and ceiling panels.

The Diamond Oil is a simple system which is unique and easy to apply with a high degree of saturation, fast drying producing an extremely hard wearing surface with high water and stain resistance from day one.

The WOCA Diamond Oil is available in several modern colours but can also be tinted in customized colours for industrial application. WOCA Diamond Oils are environmentally friendly products based on vegetable oils and unique unleaded drying agents.

The Diamond Oils are suitable for commercial high wear applications with the maximum water and stain resistance.

The Diamond Oils are compatible with all WOCA after care products. Diamond Oil is used for oil finishing of wooden floors with floor machine. Diamond Oil is ideal for basic finishing of any unfinished, new and newly sanded interior woodwork.

- Suitable for all types of wood floors
